

CPCAB Independent verification reports 2026

We are deeply committed to maintaining the highest educational standards and to ensure this, we submit to a rigorous, independent verification process by the CPCAB.

The comprehensive evaluation involves independent verifiers assessing marking standards, the quality of submitted student work, tutor readiness and expertise, course outcomes, and student retention for each cohort we run. Most importantly, verifiers speak directly with students during a live session (without the tutor present) to gather completely unfiltered, honest feedback about their experience.

The official feedback, compiled below, is drawn directly from our 2025 and 2026 independent verification reports, and reflects our unwavering dedication to quality education, expert tuition, and a profoundly safe learning environment.

Exceptional Quality of Education and Course Impact

- The training has been described as one of the most meaningful and impactful courses for professional and personal development.
- Learners note that the training significantly deepens their understanding of trauma and the nervous system, providing meaningful effects on both professional practice and personal growth.
- One student expressed that the course was "the most powerful course I've ever been on".
- Students highly recommend the course to other therapists, stating that the practical knowledge is easy to incorporate into their current practice.
- Candidates express that they feel enabled and inspired to blend new skills into their practice.

Outstanding Tutor Knowledge and Support

- Tutor Greg James is consistently praised for demonstrating deep knowledge, skills, and a genuine passion for this area of therapeutic intervention.
- Students describe the tutor as offering the "perfect balance of knowledge, humour, empathy, and openness".
- The lesson pacing and engaging delivery style have been highlighted as excellent.
- Candidates appreciate the tutor's insights during demonstrations, which significantly enhance the expected course content.
- External verification confirms the tutor provides developmental, encouraging, and highly specific feedback to candidates, demonstrating empathy and appreciation for their learning journeys.

A Safe and Trustworthy Learning Environment

- Feedback suggest that there is a strong atmosphere of safety, attunement, and trust, allowing for deep experiential learning.
- Candidates express high satisfaction with the structure and provision of the virtual learning space, noting it is well-managed and clear.
- The tutor facilitates sensitive content with both seriousness and good judgment, ensuring a supportive group dynamic.

External Quality Assurance

- Independent verification reports consistently record extremely high proficiency and student retention rates.
- The course has a clear emphasis on candidate welfare
- The depth and quality of learning has been exceptional, with a thoughtful balance of experiential practice, case study work, reading, assignments, lectures, and supportive resources.
